BIBLIOGRAPHY

Notes:
1. Items are listed in alphabetical order of name of author or editor. Many Indonesian/Malay names do not contain a recognizable “surname”, so I have adopted the practice of using the first occurring name (e.g., Tataq Chidmat, Ariffin Omar) as the name for alphabetical purposes, unless the name is so well known that this would be obviously wrong (e.g., Mohammad Hatta), or where other guidance (e.g., a Batak marga name such as Mochtar Lubis) is available.

2. Works by government departments with no named author are usually in the order of the first letter of the first word of the name. I have tried to avoid the designation “anonymous” except where no other choice seems available.

Archives and Official Sources

Australia  
National Archives of Australia  
Citations are “NAA”, followed by series number and file number.  
Department of Foreign Affairs files 1945–1970.  

National Library of Australia (NLA)  
Indonesian Acquisitions list, 1971–76.  
Private papers of Professor Herbert Feith — consulted with kind permission of Mrs Betty Feith. The papers have yet to be fully catalogued.

Monash University, Melbourne  
Papers of Professor Herbert Feith. These are broadly those papers connected with his official life as a lecturer at the University, while the papers in NLA are generally more of a private nature, but there is an overlap. These papers are identified with a series number, MON 78, an accession number 1991/09, and an item number.

Other  
Overzicht van de Inlandsche en Chineese Pers (Summary of Native and Chinese Press, produced weekly) 1919–30 and 1939–40, on microfiche at National Library of Australia and Menzies Library, ANU.

Dutch Archives and Official Publications  
Nationaal Archief (National Archives — NA), The Hague, Netherlands  
Dutch colonial archives, including Verbaal files, official Ministry of Colonies (Ministerie van Kolonien) archives, intelligence files, and many personal archives. Citations from the Nationaal Archief normally start with the letters “NA” followed by an identification number, the name of the archive, and often also by an inventory number, e.g., “NA 2.10.17, Procureur Generaal Archive,
Part 367”. Personal archives usually have such numbers supplemented by a personal name, e.g., “Collectie Spoor”.

- *Memories van Overgave*, 2.10.39, handover reports by Dutch officials in the regions prepared for their successors. (Bafflingly, the copies in the Menzies Library at ANU on microfilm — apparently supplied to ANU some time in the 1970s or earlier — were censored versions, all of the political sections of the *Memories* being expunged. NA in The Hague has the uncensored versions.)

- Ministerie van Kolonien geheim Archief (Ministry of Colonies Secret Archives), 2.10.36.013, on microfiche.

-Nationaal Instituut voor Oorlogsdocumentatie (NIOD — National Institute for War Documentation), Amsterdam

Mainly dedicated to the Dutch experience during the Second World War. I consulted the material about the Indies/Indonesia — *Indonesie Collectie* (NIOD index Volumes 4A, 4B, 4D, 5, and 12 — diaries), which includes vast amounts of material about the internment camps; but also has Japanese-period documents, some material from the late Dutch period, RAPWI documents, and many documents relating to war crimes investigations. Almost all NIOD documents have six-figure identification numbers and are identified by those numbers preceded by “NIOD”, e.g., “NIOD 076323”. Other methods of accessing information include the name card index and the *trefwoord* (keyword) index. Apart from those mentioned, other useful categories include the Natijd lists, and Collectie K.A. de Weerd.

Foreign Ministry Library

Holdings of Netherlands Indies Intelligence Organisation (NEFIS) files, not yet handed over to the Nationaal Archief. These have their own series of five-figure identification numbers, e.g., 06915.
Centraal Archievendepot (Central Archives Depot [CAD]), Ministry of Defence, Rijswijk
Sources derived from this depot are cited as “MvD/CAD” followed by available identification numbers. This vast and valuable resource contains many NEFIS files, but these are poorly indexed.
- NEFIS files — normally indexed in bundles with AA numbers e.g., “AA21”. Each bundle contains a series of folders labelled (un informatively) with vague titles such as “NEFIS 1948–49”. These are the largest holdings of NEFIS files.
- Hoofdkwartier Generale Staf (Headquarters General Staff) archive. These have a three-figure inventory number, e.g., “invnr 695”.
- Kabinet Legercommandant (Cabinet of the Army Commander) archive. These have two-figure inventory numbers, e.g., “invnr 35”.

Instituut voor Militaire Geschiedenis (IMG) (Institute of Military History), Alexander Barracks, The Hague
Cited as “IMG” followed by identification numbers. This contains duplicates of many files photocopied from holdings in the CAD, Nationaal Archief and elsewhere, including NEFIS files.

Archief Kennemerland, Haarlem
Records of HBS-B Haarlem, from the 1930s. Residence records.

Leiden University Library
Leiden University student enrolment records, 1934–40.

Indonesian Official Sources
Indonesian Government Official Archives (Arsip Nasional Indonesia), Jakarta
Foreign researchers need a research visa to examine and photocopy documents; but visitors without such a visa may normally be permitted to examine document inventories (only).
Vice Presidential Archive of Hamengku Buwono IX (1973–78).
Personal Archive of Roeslan Abdulgani.

Widyo Budoyo (Yogyakarta Palace Archives), Yogyakarta
Holdings are documented in two main index books: Lindsay, Jennifer; Sutanto R.M.; Feinstein, Alan, eds., Kraton Yogyakarta: Katalog Induk Naskah2 Nusantara no 2 [Yogyakarta Kraton: Main National Catalogue of Documents no 2], q.v.; Ismuwanto, R. Hery; and Pitoyo, Moh Ali, Katalog Arsip2 Penting Keraton Ngagyogyakarto [Catalogue of Important Archives in the Yogyakarta Kraton], q.v. Holdings of documents of political and historical interest are, however, relatively scanty.
Permission to view files and other holdings as catalogued in these books is sought individually; permission is usually granted.

Other holdings consulted include Kan Po 1942–45, Pelopor Yogyakarta 1973–78.

Two large scrapbooks of press clippings from the period 1938 to 1944. These include clippings about Yogyakarta events from print media such as Surabaiasy Handelsblad (Surabaya) and Mataram (Yogyakarta). Citations from the scrapbooks give details of the newspaper articles cited but add the abbreviation KPC (“Kraton Press Clippings”), because many of these seem to be unobtainable in Australia.

Arsip Daerah Istimewa Yogyakarta (DIY) (Yogyakarta Regional Archives)
Documents in this archive carry their own three-figure identification number, e.g., 157, sometimes with an additional letter e.g., 115R. Holdings are indexed in Pemerintah Propinsi Daerah Istimewa Yogyakarta, Daftar Pertielaan Arsip2 Penting (list of Important Archives) Kantor Arsip Daerah DIY, nd (q.v.). Entry to the archive is possible for foreign researchers, but photocopying of documents is normally not permitted.
