SPIRITS
AND SHIPS
The Nalanda-Sriwijaya Series, established under the publishing programme of ISEAS – Yusof Ishak Institute, Singapore, has been created as a publications avenue for the Nalanda-Sriwijaya Centre. The Centre focuses on the ways in which Asian polities and societies have interacted over time. To this end, the series invites submissions which engage with Asian historical connectivities. Such works might examine political relations between states; the trading, financial and other networks which connected regions; cultural, linguistic and intellectual interactions between societies; or religious links across and between large parts of Asia.

ISEAS – Yusof Ishak Institute (formerly the Institute of Southeast Asian Studies) was established as an autonomous organization in 1968. It is a regional centre dedicated to the study of socio-political, security and economic trends and developments in Southeast Asia and its wider geostrategic and economic environment.

The Institute’s research programmes are the Regional Economic Studies (RES, including ASEAN and APEC), Regional Strategic and Political Studies (RSPS), and Regional Social and Cultural Studies (RSCS).

ISEAS Publishing, an established academic press, has issued more than 2,000 books and journals. It is the largest scholarly publisher of research about Southeast Asia from within the region. ISEAS Publications works with many other academic and trade publishers and distributors to disseminate important research and analyses from and about Southeast Asia to the rest of the world.
