Indexing
Note to Contributors

SOJOURN is an interdisciplinary journal devoted to the study of social and cultural issues in Southeast Asia. Empirical and theoretical research articles are published with a view to promoting and disseminating scholarship in and on the region. Areas of special concern include ethnicity, religion, urbanization, migration, and development.

Contributions are invited from all scholars, especially those working in Southeast Asian universities and research institutions. Each article should be between 5,000 and 7,000 words in length. It should be accompanied by an abstract of not more than 100 words and a note on the author’s affiliation. Research notes and comments, which would include reports of research findings of shorter length, as well as reports of ongoing research projects, are also invited. Notes on conferences, seminars, and workshops, and comments on institutions devoted to Southeast Asian Studies are published as well.

Two copies of the manuscript, plus a diskette, specifying the software used, should be submitted. The manuscript should be typed in double spacing on A4 size paper with a margin of 3 cm. all round.

Bibliographical references should be incorporated into the text using the author-date system, with page numbers where appropriate. Notes should be kept to a minimum and numbered consecutively throughout the text. All references should be listed alphabetically at the end of the article. For journal articles, the volume and issue number, month and year of publication and inclusive page numbers should be provided. Bibliographical references should follow the style used in this issue.

Contributors of Articles and Research Notes and Comments will be given twenty off-prints for each article published in addition to a complimentary annual subscription to the journal.

Editorial correspondence and contributions should be directed to:
