

About the Author

Agnes Casiple-Rola is Professor at the Institute of Strategic Planning and Policy Studies and Dean of the College of Public Affairs at the University of the Philippines Los Baños (UPLB). She currently holds a UP Science Productivity Award as UP Scientist II and teaches policy analysis and quantitative methods courses.

She has written vastly on the economics, institutional, and policy aspects of sustainable agriculture. She has served as member of board of trustees of international and national agencies; editor, member of the editorial board, and journal reviewer for several journals locally and abroad; and member of a number of professional societies. She has also acted as consultant to various international and national agencies. Her recent international stints include being one of the lead authors and chapter reviewers of the global Millennium Ecosystems Assessment (MEA) report and the International Assessment of Agricultural Science and Technology for Development (IAASTD).

She was one of the Principal Investigators of SANREM CRSP SEA Phases I and II from 1994 to 2004, and project personnel of Phase III that began in 2006. That year was also the start of her long-term involvement with the International Research Institute for Climate and Society (IRI) of Columbia University, USA, in a project about climate risk management.

She earned her PhD degree in Agricultural Economics from the University of Wisconsin-Madison, USA, MS degree also in Agricultural Economics from the University of the Philippines Los Baños, and Bachelor of Science degree in Statistics from the University of the Philippines Diliman. She is also an alumna of the Environmental Leadership Program (ELP) of the University of California-Berkeley.

She lives in Los Baños, Laguna, Philippines with her husband, Walfredo R. Rola, PhD, and their four children: Aileen Roselle, Wilbert Allan, Armand Christopher, and Alyssa Marie. In 2008, she became grandmother to a beautiful baby boy, Andrei Martin Nevado- Rola.
