The **Development Centre of the Organization for Economic Co-operation and Development** was established by decision of the OECD Council on 23rd October 1962 and comprises twenty-four member countries of the OECD: Austria, Belgium, Canada, the Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Japan, Korea, Luxembourg, Mexico, the Netherlands, Norway, Poland, Portugal, the United States, Spain, Sweden and Switzerland, as well as Argentina and Brazil from March 1994. The Commission of the European Communities also takes part in the Centre's Advisory Board.

The purpose of the Centre is to bring together the knowledge and experience available in member countries of both economic development and the formulation and execution of general economic policies; to adapt such knowledge and experience to the actual needs of countries or regions in the process of development and to put the results at the disposal of the countries by appropriate means.

The Centre has a special and autonomous position within the OECD which enables it to enjoy scientific independence in the execution of its task. Nevertheless, the Centre can draw upon the experience and knowledge available in the OECD in the development field.

The **Institute of Southeast Asian Studies** (ISEAS) was established as an autonomous organization in 1968. It is a regional research centre for scholars and other specialists concerned with modern Southeast Asia, particularly the multi-faceted problems of stability and security, economic development, and political and social change.

The Institute is governed by a twenty-two-member Board of Trustees comprising nominees from the Singapore Government, the National University of Singapore, the various Chambers of Commerce, and professional and civic organizations. A ten-man Executive Committee oversees day-to-day operations; it is chaired by the Director, the Institute's chief academic and administrative officer.

## ***Acknowledgements***

The papers in this volume were first presented at the ASEAN Roundtable “ASEAN & EU: Forging New Linkages & Strategic Alliances”, which was jointly sponsored by the Institute of Southeast Asian Studies, Singapore, and the OECD Development Centre, Paris, and held on 17–18 September 1997 in Singapore. The objective of the ASEAN Roundtable series of discussions is to review major developments in ASEAN and to explore new ways or directions for ASEAN economic co-operation in the light of the changing global economic environment, as well as the emerging domestic situation and needs in the region. The editors are grateful to all the contributors for their generous help and co-operation in the preparation of this volume.
