

Cities and Climate Challenges in Southeast Asia

The ISEAS – Yusof Ishak Institute (formerly Institute of Southeast Asian Studies) is an autonomous organization established in 1968. It is a regional centre dedicated to the study of socio-political, security, and economic trends and developments in Southeast Asia and its wider geostrategic and economic environment. The Institute's research programmes are grouped under Regional Economic Studies (RES), Regional Strategic and Political Studies (RSPS), and Regional Social and Cultural Studies (RSCS). The Institute is also home to the ASEAN Studies Centre (ASC), the Singapore APEC Study Centre, and the Temasek History Research Centre (THRC).

ISEAS Publishing, an established academic press, has issued more than 2,000 books and journals. It is the largest scholarly publisher of research about Southeast Asia from within the region. ISEAS Publishing works with many other academic and trade publishers and distributors to disseminate important research and analyses from and about Southeast Asia to the rest of the world.

Cities and Climate Challenges in Southeast Asia

CONTENTS

<i>Acknowledgements</i>	<i>vii</i>
<i>About the Contributors</i>	<i>ix</i>
1. Introduction <i>Melinda Martinus, Jiahui Qiu and Sharon Seah</i>	1
Section I: Climate Risks in the Southeast Asian Urban Context	
2. Water Security and Climate Change in the City of Baguio <i>Alejandro N. Ciencia and Gladys A. Cruz</i>	9
3. Exploring Agroecology for Enhancing Climate Actions and Food Security in Cities: Malaysia as a Case Study <i>Ku Nurasyiqin Ku Amir and Bakri Mat</i>	30
4. Climate Change and Heritage Preservation: A Case Study of the Complex of Hue Monuments <i>Nguyen Ky Nam</i>	44
Section II: Climate Resilience and Urban Governance	
5. The Interplay Between Climate Risks and Ten Years of Urban Development in Ho Chi Minh City <i>Nigel K. Downes</i>	61

6.	Building Climate-Resilient Communities: A Cursory Review of Selected Local Climate Action Plans in the Philippines <i>Kristoffer B. Berse and Elton Evidente</i>	73
7.	The Role of International City Networks in Advancing Cities' Climate Ambitions: A Case Study of Jakarta <i>Nila Kamil and Sayel Cortes</i>	92
8.	Knowledge Systems Approach to Democratic Climate Change Adaptation in Urban Historic Environments <i>Virajhita Chimalapati</i>	106
Section III: Urban Climate Interventions		
9.	Nature-Based Solution Infrastructure for Flood Mitigation: An Experience from the Jakarta Metropolitan Area <i>Adiwan Aritenang</i>	127
10.	Leveraging De-risking Instruments to Scale-up Adaptation Finance in Jakarta <i>Bruce M. Mecca and Ines Ayostina</i>	140
11.	The Application of the Task Force on Climate-Related Financial Disclosures Index (TCI) on Malaysian Property and Construction Companies <i>Renard Y.J. Siew</i>	157
12.	The Role of Official Development Assistance (ODA) for Advancing Sustainable Climate Adaptation: A Case Study of Japanese ODA in Vietnam <i>Michiyo Kakegawa</i>	174
13.	Summary and Policy Recommendations <i>Melinda Martinus, Jiahui Qiu and Sharon Seah</i>	193
	<i>Index</i>	195

ACKNOWLEDGEMENTS

This compendium had its origins in the workshop on “Cities and Climate Challenge in Southeast Asia” held online on 5–6 October 2021. Organized by the Climate Change in Southeast Asia Programme at the ISEAS – Yusof Ishak Institute, the objective of this workshop and compendium series was to facilitate knowledge exchange and share best practices to deepen understanding of the complex and multidimensional nature of climate challenges in the Southeast Asian cities context.

This workshop and compendium series aimed to provide an accessible platform for early-career scholars, established researchers, policymakers, practitioners and experts to:

1. Analyse climate risks with rigorous arguments and strong evidence in the context of Southeast Asia’s transformation;
2. Shed light on gaps and opportunities of climate transformation for a more resilient and sustainable region;
3. Communicate complex empirical research in a concise style and policy-focused scenarios;
4. Share insights, experiences, best practices, and tools in helping the region achieve its climate mitigation and adaptation targets;
5. Showcase initial findings, part of on-going research projects, or snapshots of urban development trends and climate risks across the region.

We would like to thank the contributors for devoting their time to writing and preparing their papers for the workshop. We would like

to thank the Scientific Committee of this compendium and workshop series: Dr -Ing Peter Andreas Gotsch (Norwegian University of Science and Technology), Dr Emma Colven (University of Oklahoma), and Mr Joris van Etten (Asian Development Bank) for their invaluable feedback on the contributors' papers and inputs in improving this publication. We also would like to thank Ms Aninda Dewayanti and Ms Rebecca Neo for their assistance in rapporteuring the workshop. Finally, many thanks to ISEAS Publishing for facilitating the publication with efficiency and professionalism.

ABOUT THE CONTRIBUTORS

Adiwan Aritenang is Assistant Professor and Undergraduate Program Director at the Urban and Regional Planning Program, Bandung Institute Technology (ITB). His research focuses on urban and regional economics, infrastructure and fiscal decentralization, creative city and urban analytics.

Alejandro N. Ciencia is Professor of Political Science at the Department of Economics and Political Science, College of Social Sciences, University of the Philippines Baguio. He teaches research methods, political philosophy, and Philippine politics. His research interests include urban resilience, water security, judicial decision-making and politics, and issues of justice.

Bakri Mat is Senior Research Fellow at the Asian Institute of International Affairs and Diplomacy (AIIAD), and Associate Professor at the School of International Studies, Universiti Utara Malaysia.

Bruce Mecca is Analyst at the Climate Policy Initiative (CPI), Indonesia. His research interests include market-based solutions for climate goals, public policy, carbon market mechanisms, fiscal policy, and green investments.

Elton Evidente is Junior Project Officer at the Research and Creative Work of the Philippines Resilience Institute (UPRI). He is a licensed Environmental Planner and currently completing his Master's degree in Urban Planning at the University of the Philippines Diliman.

Gladys A. Cruz is Associate Professor of Economics at the Department of Economics and Political Science, College of Social Sciences, University of the Philippines Baguio. She teaches mathematical economics, econometrics, labour economics, statistics and social research. Her research interests include natural resource management, urbanization, and regional competitiveness.

Ines Ayostina is a Fox Research Fellow at Yale University and a Visiting Scholar at Copenhagen Business School. She specialized in environmental policy and governance in climate solutions, oceans, and circular economy.

Kristoffer B. Berse is Associate Professor at the University of the Philippines' National College of Public Administration and Governance (UP-NCPAG) and concurrent Director for Research and Creative Work of the University of the Philippines Resilience Institute (UPRI). He teaches courses on public policy, research methods, local government, and special topics in public administration, particularly disaster risk governance, at the undergraduate and graduate levels.

Ku Nurasyiqin Ku Amir is PhD candidate in Strategic Studies, School of International Studies, Universiti Utara Malaysia.

Melinda Martinus is Lead Researcher at the ASEAN Studies Centre and the Climate Change in Southeast Asia Programme, ISEAS – Yusof Ishak Institute. Her research interests revolve around sustainable development, smart city initiatives, digitalization, institutional framework and policies for advancing climate ambition in ASEAN countries.

Michiyo Kakegawa is Associate Professor at the Faculty of Economics, Soka University. She specializes in international development policies, environment policy and management, environment and social safeguards, and climate adaptation.

Nguyen Ky Nam is PhD candidate in Critical Heritage Studies, Griffith University, Australia and an on-leave lecturer in Urban Heritage Studies at the University of Social Sciences and Humanities, Vietnam National University, Hanoi. His research focuses on cultural heritage and climate change, cultural heritage management and conservation and cultural studies.

Nigel K. Downes is Integrated Expert at the College of Environment and Natural Resources, Can Tho University, a position supported by The German Agency for International Cooperation (GIZ). His work has focused on urban environmental issues, spatial monitoring and indicator assessments, climate adaptation and planning.

Nila Kamil is PhD candidate at the Environmental Policy Group, Wageningen University & Research. Her research interests include international climate negotiation, climate governance and climate mitigation transparency in developing countries.

Qiu Jiahui is Research Officer at the Climate Change in Southeast Asia Programme, ISEAS – Yusof Ishak Institute. Her research focuses on Southeast Asian countries' Nationally Determined Contributions (NDCs), methane and climate change, and youth's participation in advancing climate transformations.

Renard Y.J. Siew is Climate Change Advisor at the Centre for Governance and Political Studies (CENT-GPS). Previously, he was Co-Chair of the Global Young Academy's Climate Change & Disaster Risk Management Working Committee and the United Nations Environment Programme Finance Initiative's (UNEP-FI) Collective Commitment on Climate Action.

Sayel Cortes is PhD candidate at the Environmental Policy Group, Wageningen University & Research. His research interests include the role of climate city networks in global climate governance and polycentric system of governance.

Sharon Seah is Senior Fellow and Coordinator at the ASEAN Studies Centre and the Climate Change in Southeast Asia Programme, ISEAS – Yusof Ishak Institute. Her research covers climate governance, sustainable finance, major power rivalry and the rule of law in ASEAN.

Virajhita Chimalapati is doctoral student in Conservation Studies at the University of York, United Kingdom. Her research focuses on exploring the synergies between cultural heritage management, co-creative policy design, and emerging infrastructural interventions in historic port cities of Southeast Asia.
