

SCHOOL  
SUMMER

## BUILDING A COMMUNITY- BASED HISTORY CONSCIOUS HERITAGE

**Yogyakarta, 5–10 August 2024**

This first critical heritage summer school aims to provide a space for discussion and experimentation for those involved in the formation of heritage knowledge and management institutions. The summer school will trace the historical roots of heritage knowledge production based on tracing objects and their movement within history and heritage institutions; and visiting sites around Yogyakarta to understand object absences and their effects on communities. Finally, we will explore how these heritage sites and objects can be a core part of shaping a relevant heritage community for today.

Information & Registration: [ugm.id/histss24critage](https://ugm.id/histss24critage)

Registration Deadline: **7 July 2024**
